

Company Profile

ABOUT US

We are an event consulting and equipment hire company established in 2006 with our headquarters in Nairobi, Kenya. We provide services to corporate functions, entertainment concerts amongst other occasions.

Xpose Limited at its inception sought to provide fresh, unique and affordable event concepts under the leadership of Mr. Maxwell Mueke Mululu, one of its Directors. This has gone ahead to become Xpose Limited's ethos as we provide solutions and services for corporate, social and private events in Kenya and beyond.

We specialize in co-creating creative event production concepts, hiring out LED screens, PA systems, stages and lighting for corporate and social events. Our mandate is to create a different and memorable for our clients.

1

Live Streaming

At Xpose Limited we have perfected the art of live streaming events professionally and seamlessly with an expert crew and top of the range equipment. With our ability to use multiple streaming platforms, your event will effectively reach the intended audience, wherever they are.

2

Studio Space

Our in house studio facility is available for small to large video recording and live stream sessions and can be tailored to meet your specific event needs. With top of the range lighting, visual and sound equipment, we can cater to a wide range of clientele that includes bands, producers, musicians and corporates, ensuring that the video production and live stream process is professional & seamless.

3

Concept Development

We live in a realm of all possibilities and that's how team #mwenyeji (Xpose) thinks. When it comes to developing concepts for every occasion be it concert, conference, product launches or social events, team **mwenyeji** will create a concept uniquely tailored to your event. Our creative and technical contribution can add that almost indefinable "something" to your event.

4

Visual Solutions

We offer state of the art visual equipment combined with creative technical support from our project managers who have many years of experience in providing memorable events. Our visual equipment includes LCD and DLP projectors, LED TVs, indoor and outdoor LED screens and media servers to help you seamlessly run event content for both large and small events.

5

**Audio
Solutions**

We have earned a reputation as a provider of reliable audio concepts and solutions for all types of functions and events. Our impressive portfolio speaks for itself. We provide high-quality equipment systems (analogue & digital sound mixers, countryman microphones, column array sound systems) and innovative set-up and venue layout suggestions.

6

Staging & Lighting

Our unique and stylish stages have been designed to cater for all kinds of events, from small private events, to large corporate and social events. Our in-house designers and staging experts have a wealth of experience and work together to deliver high-quality stages using only the best materials. We have stages of different heights from 0.3m to 2m high. We also offer custom-built stage sets that allow you to create an experience your audience will love and remember. We offer multifaceted support to all sectors of the event staging industry. We have a special knack for creating ambiance relevant to the event at hand by use of our professional lighting systems. Our team is committed to giving the client the very best in creative lighting.
